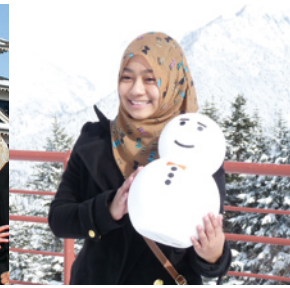
Travel Guide



日本の旅 昇龍道

Japan. Endless Discovery.

Welcome to SHORYUDO!

NAGOYA MOSQUE
CHAIRMAN OF BOARD OF DIRECTORS
QURESHI ABDUL WAHAB

Assalamu Alaikum and welcome to Japan!
I am sure you will have a pleasant stay here. Japan is an environment comfortable for all Muslims due to the characteristics that Muslims and Japanese people have in common. As if they follow the Sunnah, people here are honest, polite, caring, and have compassion and respect towards others. Inshallah, you will make wonderful and splendid memories in Japan that you will never forget.

NAGOYA MOSQUE
VICE CHAIRMAN OF BOARD OF DIRECTORS
(Professor, Kinjo Gakuin University)
IKURO YAMAMOTO

The "SHORYUDO project" was started by 9 prefectures in the Chubu Region, located in the center of Japan. Since the project's inception, the private and public sectors have been working together to create an environment where you can enjoy Japanese culture through accommodations and food without having any conflict with your foreign culture, in particular, Islamic and other religious cultures, so that you can enjoy to the full extent the rich tourist resources of Chubu. We are confident that, while traveling in "SHORYUDO," you will be enchanted by the richness of nature and the great sensitivity of Japanese culture.

Travel advice for the Shoryudo area

Places of worship

- See P.11~12 for facilities which provide a space for worship.
- See P. 14 for the nearest mosque. Since Japanese mosques are not open around the clock, please check in advance.

Wudu

- Since there are few dedicated facilities for Wudu in Japan, it is advisable to perform Wudu before going out.
- When performing Wudu in Japan, please be careful not to splash water too much in the washing area. Please take care so that the next person can also use the place comfortably.

Food & drink

- There are many Japanese dishes that you can eat without anxiety such as sushi, tempura, soba (buckwheat noodles), udon (wheat noodles), fish and shellfish, etc.
- Japanese fruits are high-quality, fresh and delicious to eat.
- "Mirin" (sweet cooking rice wine) is a common seasoning (alcohol) used in Japanese food. However, it evaporates when cooked.

Souvenirs

- Some souvenirs contain lard, gelatin or emulsifier (shortening) with a pig-derived ingredient. When buying souvenirs, show the Muslim support card at the end of this book to the store staff to make sure your purchases do not contain prohibited ingredients.

Restrooms

- Toilets equipped with an automatic cleaning function (bidet) can be found almost everywhere in Japan. At the push of a button, water is sprayed automatically for cleansing.

Public baths/hot springs

- In a Japanese public bath, you take off all your clothes to take a bath. In principle, it is not allowed to have your swimsuit on or a towel around your body.
- However, there are some facilities where you can reserve time for private bathing. Please check in advance. (P. 11~12)

Wi-Fi spots

- Free Wi-Fi spots are scattered around Japan. Wi-Fi is available at hotels, restaurants, beverage vending machines, etc., and is indicated with a sticker with one of the following marks. Also, it is available in the vicinity of some tourist information centers. FON users can also use Wi-Fi in FON spots in Japan.
